

The revised house, with the library and rear plant room

Full plan 1:100 at A3 | South up / north down / east left / west right | 13 September 2026

CHANGES IN THIS PROPOSAL

- Garden-side plant behind the gym.
- Internal door through the gym.
- Snug rooflight replaces side window.
- Library bookcases with TV provision.
- Two permanent office workspaces.

RETAINED HOUSEHOLD BRIEF

- Parents-suite A; child-room doubles.
- Office sofa bed for occasional guests.
- Full 4 x 6 m gym and laundry.
- Dining assumption: 8 + 2 at island.
- Existing three island stools drawn.

SERVICES DIRECTION

- Separate wing cooling systems.
- Shared space needs its own zone.
- Hot-water / winter heat to coordinate.
- Fresh-air ventilation still to route.
- Original ST plant is a placeholder.

WHAT REMAINS PROVISIONAL

- Plant equipment and its capacity.
- Rooflight and all joinery heights.
- Heating / ventilation arrangement.
- Site, structure, windows and cost.

Room schedule and what the area numbers mean

Clear room polygons from the current model | Measurements in metres | Furniture is included on page 1

CODE	ROOM	CLEAR DIMENSIONS / ENVELOPE	m2	AREA BASIS
P	Parents bedroom	4.20 x 4.00 m	16.80	332.96 m2 internal envelope (GIA).
W	Walk-in wardrobe	3.18 x 2.10 m	6.68	373.31 m2 external footprint.
E	Parents ensuite	3.18 x 1.78 m	5.66	315.52 m2 summed clear rooms.
FB	Family bathroom	3.03 x 2.68 m	8.12	GIA includes internal partitions.
ST	Linen / plant	3.03 x 1.42 m	4.30	This is a model area convention.
C3	Child 3	3.03 x 4.22 m	12.79	
C2	Child 2	3.03 x 4.22 m	12.79	
C1	Child 1	3.03 x 4.22 m	12.79	
FH	Family hall	1.20 x 8.56 m	10.27	
G	Guest bedroom	4.58 x 3.30 m + wardrobe recess	17.12	
GS	Guest storage	2.36 x 0.95 m	2.24	
GB	Guest shower	2.10 x 2.40 m	5.04	
GL	Shower lobby	2.36 x 1.33 m	3.14	
O	Office / gaming	4.58 x 3.05 m	13.97	
S	Snug	4.58 x 2.60 m	11.91	
GH	Guest hall	1.20 x 7.35 m	8.82	
PA	Pantry	2.35 x 2.60 m	6.11	
L	Laundry	L-shape; envelope 4.58 x 3.15 m	10.86	
B	Boot room	3.30 x 2.60 m	8.58	
H	Entrance hall	2.56 x 2.60 m	6.66	
WC	Visitor WC	2.23 x 1.40 m	3.12	
OR	Open garden sitting area	4.00 x 3.50 m open zone	14.00	
GY	Indoor gym	4.00 x 6.00 m	24.00	
KL	Kitchen / dining / living	Stepped plan; main depth 4.90 m	74.73	
GH2	Shared hall	1.20 x 3.69 m	4.43	
PL	Garden-side plant	4.00 x 2.65 m	10.60	

Narrow rooms use overall clear dimensions; joinery, pocket cavities and actual frames reduce usable space.

What to decide next, and what this proposal establishes

Use concepts 22-24 for the detailed plant, services, office and library studies

USER DIRECTION CARRIED FORWARD

- Plant behind the gym with an interior door; arrival projection declined.
- Separate cooling systems on the two sides as the starting concept.
- One person switching between permanent professional / personal desks.
- Occasional office sofa bed and visiting children sharing beds.
- Library character, floor-to-ceiling books and space for a television.
- Dining accepted; working interpretation is eight plus two at the island.

1 / RESOLVE HEATING, HOT WATER AND FRESH AIR

- Choose winter heating: wet underfloor, air-to-air, or a defined combination.
- Calculate room loads and allocate closed rooms and shared-space cooling.
- Compare central versus wing-based fresh-air ventilation and service routes.
- Size hot-water storage / recovery for the agreed simultaneous shower use.
- Check incoming water / power, pipe wait times, losses and maintenance.

3 / CHECK SITE AND COST BEFORE FINISH SELECTION

- Use the actual survey, levels, boundaries and service connection positions.
- Coordinate arrival, carport, garden use and maintenance access.
- Obtain a cost review of the revised footprint, roof and services package.
- Then fix joinery products, lighting / sockets and material samples.
- Recheck everyday use against the actual chosen furniture.

DRAWN ALLOWANCES TO DETAIL

- 4.00 x 2.65 m plant room; 13.05 m2 net footprint addition.
- Gym rack / dumbbells repositioned; internal D18 moved 0.60 m.
- Snug rooflight 1.10 m square; bookcase height provisionally 2.60 m.
- Office bed envelope 2.20 x 1.90 m; both foot exits connect.
- Original family plant retained as a placeholder pending full relocation.
- No extra installed equipment or released linen storage is implied.

2 / DRAW ROOF, WINDOWS AND THE EXTERIOR

- Coordinate the rear plant roof with the wing and snug rooflight.
- Check nearby office-window outlook, shading and daylight.
- Resolve vault junctions, roof structure, insulation and service penetrations.
- Design summer shading / ventilation alongside glazing.
- Place outdoor units for access, air flow and acceptable noise.

VERIFICATION AND LIMITS

- 56 sampled 0.70 m routes pass in each of three office states.
- Room boundaries, furniture footprints and door sweeps checked.
- Library approaches and both office foot exits are connected.
- These are spatial checks, not sizing or construction certification.
- Concept 20 is historical; this is the latest consolidated proposal.

Detailed drawings: 22 plant / services; 23 office; 24 library. Selected products and professional coordination remain outstanding.
