

Two dedicated setups, with one chair between them

Office plan 1:25 at A3 | 4.58 x 3.05 m clear | Professional-work mode shown

PROFESSIONAL WORKSPACE

1.60 x 0.75 m desk on the solid south wall.
Illustrated with two screens; actual devices to select.
Leave the setup connected and ready for work.
Provide accessible power / data and task light.

PERSONAL WORKSPACE

1.80 x 0.75 m desk along the west wall.
Separate keyboard, screens and personal equipment.
One task chair moves between the two stations.
Check monitor glare and the existing window blind.

SEATING AND STORAGE

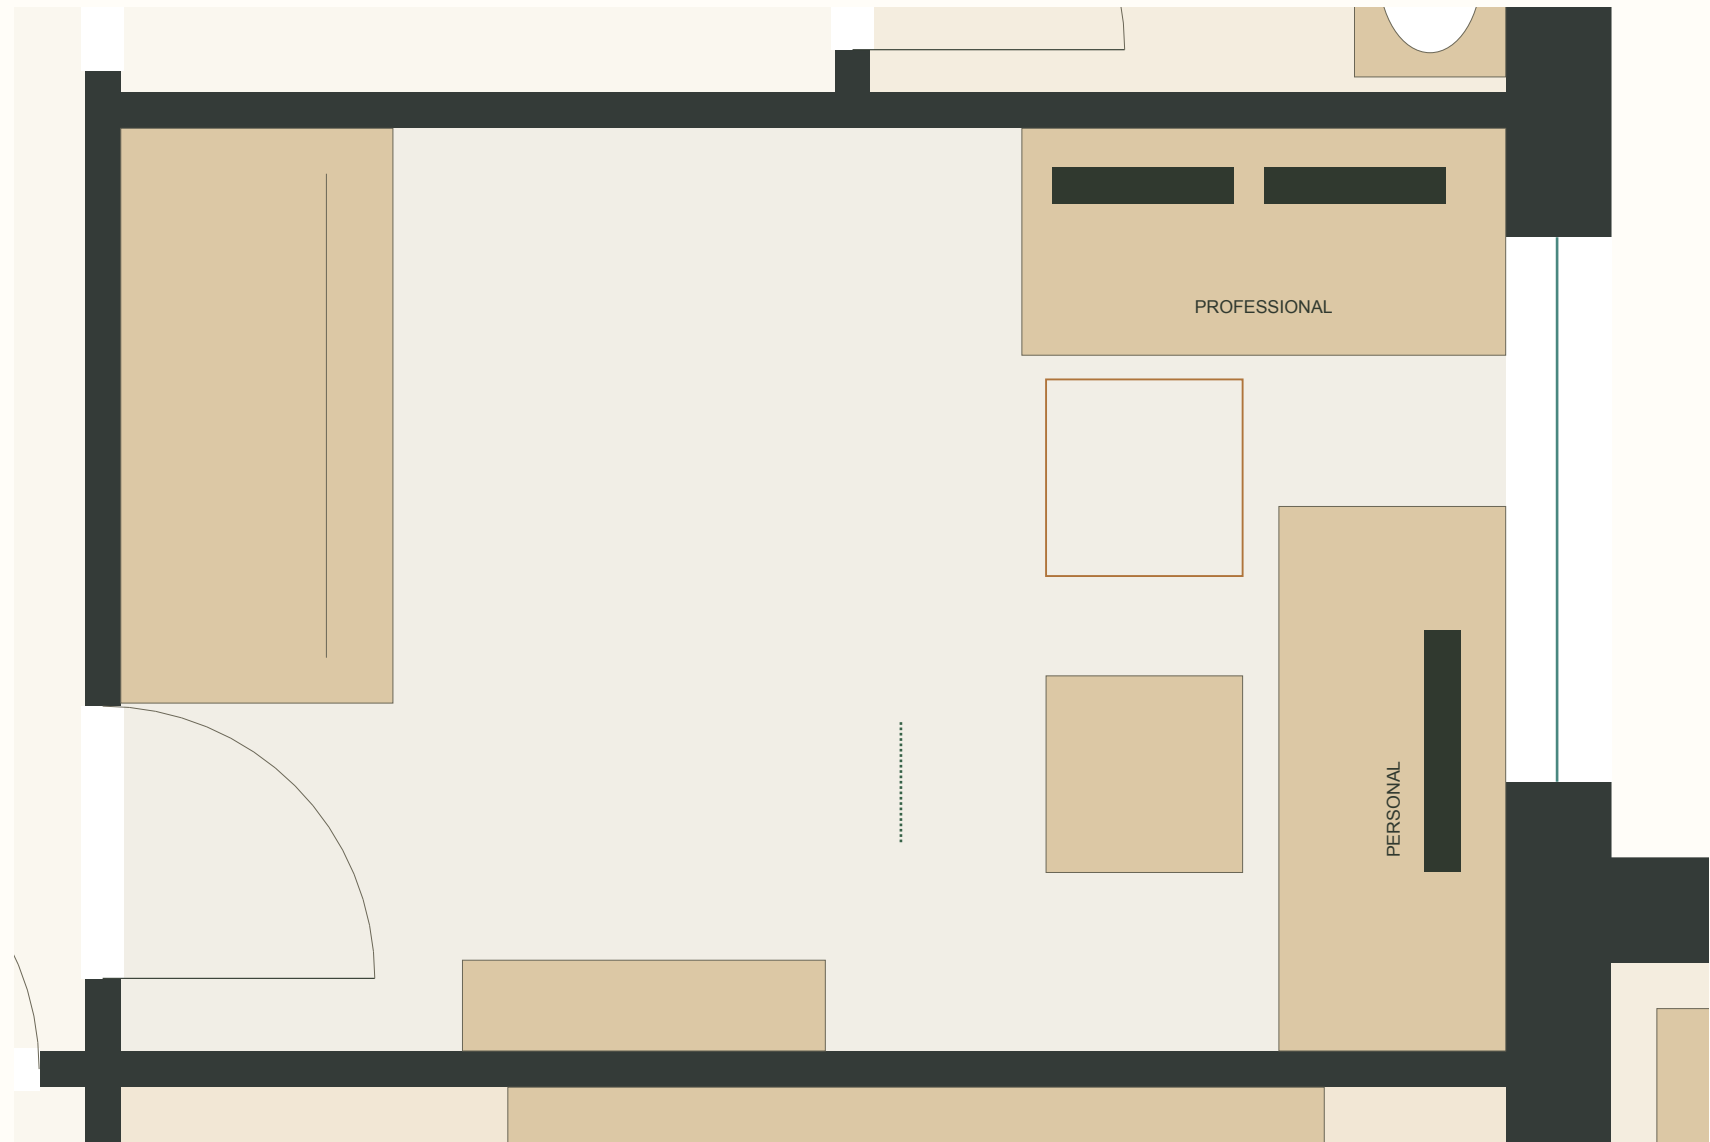

1.90 x 0.90 m closed sofa bed along the opposite wall.
1.20 m shallow shelf run for books / small items.
The door and room boundaries stay unchanged.
No second occupied workstation is assumed.

WINDOW COORDINATION

The personal desk sits at the existing west window. Verify sill height, sash / handle access and blind controls.
An opening or escape requirement cannot be assumed satisfied by this furniture plan; check the actual window before fixing joinery.
The adjacent plant extension keeps this window, but its roof edge is close to the window end and needs a daylight / outlook review.

Switch tasks without clearing the other setup

Office plan 1:25 at A3 | Personal-work mode | One chair, two tested positions

THE DAILY CHANGEOVER

Move the chair from the professional desk to the personal desk.
Both sets of devices stay in place.
Amber outline shows the alternative chair position only.
It does not represent a second person or second chair.

MAKE THE TWO SETUPS FEEL DISTINCT

Independent task lighting and reachable sockets.
Separate cable trays and labelled power / data connections.
Keep computer ventilation and leg space clear.
Match desk heights to the same chair and user.

VERIFIED SPATIAL STATES

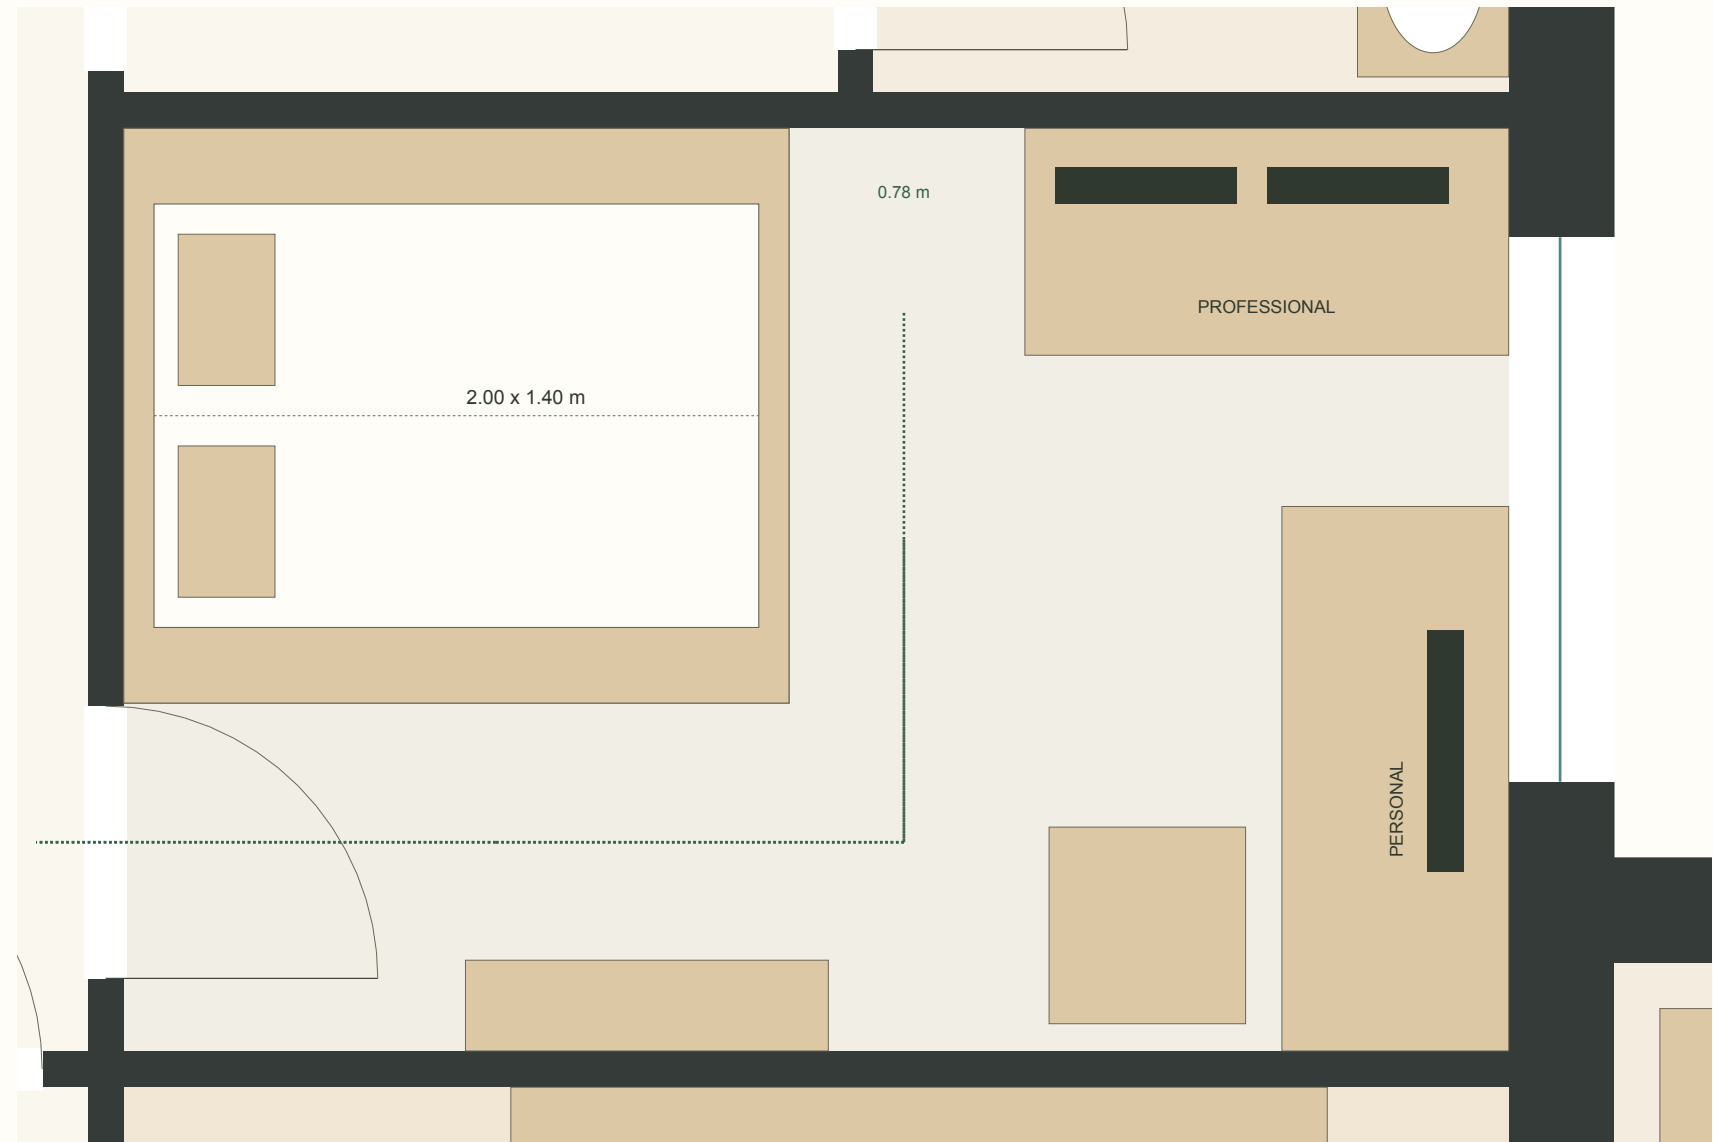

54 routes with the chair at the professional desk.
54 routes with the chair at the personal desk.
Furniture stays inside the existing office boundary.
Door sweeps clear the desk, sofa and shelf footprints.

PRODUCT SELECTION

Desk heights, monitor arms, computer cases and drawers are not specified. Check actual equipment before choosing the joinery.
A shallow desk pedestal can consume knee space; reserve device storage deliberately within the chosen desk system.

Both sleepers can leave at the foot of the bed

Office night plan 1:25 at A3 | 2.20 x 1.90 m open frame reservation | 2.00 x 1.40 m mattress allowance

WHAT IMPROVES

Both mattress halves open onto the foot-end floor route.
Neither sleeper needs to cross the other mattress half.
The narrowest drawn foot gap is 0.78 m to the work desk.
The wider room-side strip leads to the existing door.

NIGHT CHANGEOVER

Park the single chair at the personal desk end, as drawn.
Open the sofa bed toward the centre of the room.
Both desks and all devices stay in place.
The tested scenario assumes office work pauses for guests.

SOFA-BED REQUIREMENTS

Selected full open envelope must fit 2.20 x 1.90 m.
Choose an unobstructed foot end; no tall footboard.
Check mechanism travel, frame and mattress height.
The 0.78 m gap is a nominal spatial allowance.

CHECKED ROUTES, NOT AN ACCESSIBILITY CLAIM

54 routes pass with the open bed and parked chair, including both foot positions through to the guest hall.
The routes use the existing 0.70 m envelope. Selected furniture tolerances, actual users and occupied bed movements remain to verify.
This supersedes concept 18's one-sided exit proposal; the guest bedroom and other house furniture are retained.

Keep the office useful every day and straightforward for guests

Furniture brief and retained household assumptions

FURNITURE TO TEST / SELECT

- Professional desk: 1.60 x 0.75 m.
- Personal desk: 1.80 x 0.75 m.
- One task chair: 0.65 m-square plan reservation.
- Sofa: 1.90 x 0.90 m closed; 2.20 x 1.90 m open.
- Mattress allowance: 2.00 x 1.40 m.
- Books / small items: 1.20 x 0.30 m shallow run.

WHAT STAYS

- Office room, door and window positions.
- Guest bedroom and shower layout from concept 18.
- Garden-side plant / gym / snug proposal from concept 22.
- The proposed full gym area and existing laundry functions.
- The original family plant placeholder pending full relocation design.

CONFIRMED USE

- One person switching between professional and personal work.
- Separate permanent setups; no daily clearing of either desk.
- Occasional overnight sleeping remains part of the brief.
- Visiting children may share beds.
- A five-visitor example remains two in the guest bedroom, two in this room and one visiting child sharing a child-room bed.

NEXT REVIEW POINTS

- Actual screens, desk heights and personal computer dimensions.
- Window sill, operation / escape and light control.
- Open sofa-bed product and a full-size night-route mock-up.
- Quiet cooling / ventilation for work and overnight modes.
- Acoustic separation from the snug and nearby plant.

The layout gives each activity a fixed place. Product selection must preserve the foot-end exit and the two desk positions.
